Product Details:

Bio Energy Negative ion Card consists of FIR (Far Infrared Ray), which helps to heal our body. It is consisting of very high value capacity for body healing if used daily. Through the processing procedure of this bio energy card, the infrared rays are eliminated and the pure well chosen FIR wave-length, which are nearest to the micro element of human body are retained in The Bio Energy Negative Ion Card. This Bio Energy Card consist of Far infrared Ray (FIR), which is been prepared by a unique bio ceramic powder. This Bio Energy Card is created to heal all parts of the human body, this bio energy card can also improve the blood circulation in the human body cells which simultaneously improves the blood circulation in the human body.

Bio Energy card is considered as an alternative medicine, which is based on a theory that all the illness are caused by disturbance in the flow of energy in the human body.

There are seven centre points in the body from which the energy of body is flowing. This energy circulates within the body between these energy centers via a system of channels similar to blood vessels and then it flows back into the environment again.
